User Opinions

The easiest way to find, what is Find Duplicate Pictures - is to hear, what other users tell about it.

Here are some short reviews, sent to us by people, who already use Find Duplicate Pictures:"In the July issue of the "Computer World" magazine I read that Find Duplicate Pictures - is the easiest way to find and remove duplicate pictures on any computer. There are many family photos are stored in our family photo collection, many of them are in my computer. From day to day photo file duplicates are collected, collected and today at least every third picture in my family photo collection. What to do? I wanted to find duplicate pictures and remove them. First I wanted to find duplicate pictures and remove duplicate pictures in my family photo collection manually. But it took too much time. Then I remembered about that publication in the computer magazine. I downloaded and executed advised software and it found and removed duplicate pictures, duplicate photos and duplicate pictures - Automatically! No my family collection is free from duplicate pictures. Thanks a lot for all Find Duplicate Pictures developers. They make life much easier."

George Colman, photo collector "At our design bureau are stored hundreds of different pictures and photos. We use them in our work. But every day to our picture collection is appended more and more photos. It becomes very hard to find a picture that is needed for the current project. One of our designers already used on his home computer Find Duplicate Pictures, an automatic duplicate picture remover that will find duplicate pictures and remove duplicate pictures on any computer. We used it and all duplicate pictures were removed. There are no more duplicate pictures in our photo collection. Find Duplicate Pictures - is a very user-friendly duplicate picture remover that will find and remove duplicate pictures on any computer. I advice to use it for everyone who has photos on his computer and wants they to be in the perfect order."

Nicholas Moore, designer "In our office periodically is collected variety of documents in electronic form - they are needed for statistics gathering. Every Friday i create consolidated report, based on information, gathered from them. Day by day, month by month office documents collected on our file server, their quantity increased and increased, and to work with them became harder and harder. One Friday i could not find one document, needed for weekly report, and spent weekends in the office, sorting all documents by author and department, where they were created. Already was Monday, but report was still was not ready. Engineers from technical department installed, to help me, a special program for files organizing. It sorted all documents in minutes, directly as I want - first part by date, second part by size, and third part by author. Needed documents were found and from that time my work became much easier - Thanks a lot to Find Duplicate Pictures creators team."

Michael Werner, office manager

"I am working in archive department of large production company. On our servers most of documents are stored in archived state. We receive them daily and we needed, before appending to common storage, manually open every archive file, view it's content and sort it, according to documents, located in it. All was OK, but after extending of company production level we became to get more and more archived documents for processing. Finally, leaving on the work until late at night. To solve this problem was installed Find Duplicate Pictures and now it do all itself. Very powerful program - how we could be without it?"

Nikolas Flatley, director of archive department in production company

"Our department store all non-private files, transmitted over satellite network. Every day we receive millions of new files. All this data must be somehow organized, so any of our clients could easily find among that files what he need. We tried all file organizing tools, presented on market - and chosen Find Duplicate Pictures. Why? Extremely flexible settings. We set up different processing rules for audio, video, text, executable files and archives. No one other program can do it today. "

Victor Acosta, chief engineer of data processing center That's what users say about Find Duplicate Pictures. We hope, that it will be useful for you too. There are also presented other user reviews, not listed here:
